the Republic of Suriname shall grant the exclusive Merian Right of Exploitation to Surgold, so that Surgold shall have the exclusive right to Mining in accordance with the terms of this Agreement.

If the Republic of Suriname fails to make such notification within such thirty (30) day time period, then Surgold will send the Republic of Suriname a reminder in writing about the failure to send such notification.

Mineral Agreement between
The Republic of Suriname and Suriname Gold
Company LLC

12

4.3 Commencement of Development

4.3.1 Following the issuance of the Merian Right of Exploitation, Surgold shall be required to commence Development taking into account the schedule referred to in Section 4.3.3 of this Agreement.

Provided, however that if some or all of the elements of the Feasibility Study have changed in such a way that commencement of Development is infeasible, or that continuation of Development activities are infeasible, Surgold shall notify the Republic of Suriname stating the reasons why it is required to delay or discontinue Development activities.

For that purpose Surgold shall provide a schedule to commence or recommence Development to the Republic of Suriname.

The Republic of Suriname shall then notify Surgold stating that: (i) it accepts the schedule or the proposed date for recommencement of Development, or (ii) it disagrees with the reasons presented by Surgold and rejects the schedule or the discontinuation of Development, in which case, subject to the provisions of Section 4.3.3, Surgold shall be in default unless Development commences or recommences within sixty (60) days from the date of the notice by the Republic of Suriname.

4.3.2 In the case of a dispute regarding the commencement or recommencement of Development, or regarding whether the standards stated in Section 4.1 under a and b for the Merian ESIA or Feasibility Study, respectively, have been met, then the Parties shall submit the dispute to an independent third party expert (or experts), in accordance with the procedure laid down in Section 4.4 of this Agreement.

In the event Surgold has not commenced Development after the sixth year Surgold, it will yet be in default.

4.4 Appointment of Third Party Expert

4.4.1 Within thirty (30) Business Days following Surgold's providing written notice to the Republic of Suriname of its determination that commencement or recommencement of Development of the Merian Gold Project is infeasible, which notice shall include a reasonable explanation of the factors that have led Surgold to such determination, and which the Republic of Suriname disputes, Surgold and the Republic of Suriname shall agree upon the appointment of an independent third party expert who is a qualified member of a recognized professional organization as listed by the Society for Mining, Metallurgy, and Exploration (SME) in the 'Guide for Reporting Exploration Results, Mineral Resources, and Mineral

Reserves', of 2007 (or later version), and who shall have at least 20 years of experience with Development, Exploitation and Mining throughout the world.

In the event that the Parties are unable to agree upon one expert within such thirty (30) Business Days period, then each shall appoint an expert with such qualifications within the following five (5) Business Days.

In the event either Party fails to so appoint an expert on or before the day specified in the preceding sentence, the party appointed as the expert by one Party may appoint an expert to represent the Party having failed to appoint an expert within ten (10) Business Days after the expiration of such period.

The expert or experts appointed in either manner shall then proceed to request such reasonably applicable information, materials and data as is required from the Parties, which the Parties have to provide, so that the expert(s) is capable to arrive at a univocal determination as to the feasibility or infeasibility of commencing or recommencing Development.

The expert(s) shall be directed by the Parties to render a decision within sixty (60) days after his/her/their appointment.

In the event of his/her/their inability to reach a determination within sixty (60) days after appointment, then he/she/they shall select a third expert on or prior to the expiration of such sixty (60) day period (the "Arbitration Commencement Date").

If such joint appointment is not made within sixty (60) days after the Arbitration Commencement Date, either party may request that the London Court of International Arbitration (LCIA) or its successor appoint a third expert having at least the credentials set forth above to render a determination as to the feasibility or infeasibility of commencing Development.

4.4.2 The LCIA, or its successor, shall appoint the third expert within ten (10) days after request thereof is made by a Party hereto.

Within forty-five (45) days after his/ her appointment, the third expert shall render a determination as to the feasibility or infeasibility of commencing or recommencing Development.

The determination of the third expert, whether appointed by the experts appointed by the Parties or by the LCIA or its successor, shall be final.

4.4.3 If, for any reason whatsoever, a written decision of the experts appointed as provided herein, or the third expert, as the case may be, shall not be rendered within forty-five (45) days after the Arbitration Commencement Date, then at any time thereafter before such decision shall have been rendered, either Party may apply to the LCIA or its successor to determine the question in dispute consistent with the provisions of this Agreement.

The Parties agree to be bound by the determination of the LCIA.

4.4.4 Upon a determination by the expert(s) that it is infeasible for Surgold to commence or recommence Development, Surgold shall be entitled to delay commencement or recommencement of Development within the time limits described in Section 4.3.3.

4.4.5 Upon a determination by the expert(s) that it is feasible for Surgold to commence or recommence Development, Surgold shall be required to commence or recommence Development within sixty (60) days from the day Surgold is notified, as may be the case, provided that the time limits described in Section 4.3.3 shall apply, or be in default.

4.4.6 Should the arbitration process of the expert(s) take place during or extend beyond the time period when Surgold would be obligated to pay the sum of Two Million and Five Hundred thousand United States Dollars (US\$2,500,000) thereafter for every additional year, no payment shall be due for the period while arbitration by the expert(s) is underway;

provided, however, that if the resulting arbitration award is favorable to the Republic of Suriname, Surgold shall pay such fees in arrears.

4.5 New Rights of Exploitation

If Surgold's Exploration activities conducted within any Right of Exploration held prior to and as of the Effective Date, or conducted within any new Right of Exploration that may be acquired from time to time after the Effective Date per the provisions of Section 4.6, result in new gold discoveries partially or wholly within the Area of Interest, Surgold may apply to convert such Rights of Exploration to new Rights of Exploitation that will be subject to the terms of this Agreement, with the exception of the provision of Section 4.3, Commencement of Development, which shall not apply.

15.4 Undertakings by the Republic of Suriname

Subject to Chapter 2 of this Agreement, the Republic of Suriname hereby undertakes that it shall take all such steps which are necessary for the implementation of this Agreement, including passing all the necessary acts and issuing the necessary authorizations to provide for the adaptation and modification of Laws which may affect the implementation of this Agreement, and to allow Surgold to continue to carry out their obligations and to receive the benefits accorded to them under this Agreement.

15.5 Unilateral action taken by the Republic of Suriname

15.5.1 Without limiting the application of Sections 15.6 and 15.7 hereof and without prejudice to any other undertaking of the Republic of Suriname set forth in this Agreement, if, at any time during the term of this Agreement, the Republic of Suriname enacts or adopts any new Law or repeals any existing Law (collectively,

“Unilateral Action”), and if such Unilateral Action (by itself or in conjunction with any other Law or Laws) has the effect of preventing or constraining the exercise of any material right or of materially increasing the burden of performance of any obligation (including any increase in an obligation to pay a sum of money) of Surgold hereunder (a “Negative Effect”), the Republic of Suriname agrees to take such measures as may be required to restore Surgold to the position they would have retained had such Unilateral Action not been taken (“Corrective Action”).

Such Corrective Action may take any or all of the following forms, at the election of the Republic of Suriname:

15.5.3 Insofar as any Law which is enacted after the Date of Commencement and which is in violation of the express conditions and terms of this Agreement, and thus significantly and negatively influencing the activities or business operations, the Republic of Suriname must take action to take away the Negative Effect for Surgold.

15.5.4 Notwithstanding the foregoing, nothing set forth in this Agreement shall be interpreted as preventing the Republic of Suriname from taking Unilateral Action, but without any obligation to take Corrective Action, if the Unilateral Action is necessary for:

- (a) the protection of the health and safety of the population of the Republic of Suriname or parts thereof; or
- (b) the protection of the human and natural environment of the Republic of Suriname; or
- (c) complying with international obligations arising out of treaties ratified by the Republic of Suriname.

In respect of the application of such Unilateral Action to Surgold it should be offered sufficient room to ensure the observance thereof.

The Unilateral Action should relate to the prevention of damage to the general health and safety of the population and the human and natural environment, and should meet standards of reasonableness, designated as ‘good government practice’ and in accordance with international standards.

15.5.5 Notwithstanding the provisions of Section 15.5 hereof, the Republic of Suriname shall not, whether by Unilateral Action or otherwise, unilaterally amend or terminate this Agreement other than in accordance with the express terms hereof.

15.6 Preservation of Surgold's Property Rights

With respect to the property, rights and interests of Surgold arising out of this Agreement or in any way connected with the Project, and subject to Chapter 2 of this Agreement, the Republic of Suriname agrees to: (i) ensure the fair and equitable treatment of such property rights and interests, (ii) in no way to impair or interfere with the management, maintenance, use, enjoyment or disposal (except as expressly provided herein) of such property, rights and interests, and (iii) to take no action to expropriate any property, rights or interests, whether characterized as expropriation or otherwise, or to directly or indirectly deprive Surgold of such property, rights or interests.

The Partners promptly shall meet to discuss the information obtained and attempt to resolve any concerns raised by such Party.

15.8 Survival

The representations, warranties, covenants and undertakings set forth in this Chapter 15 shall remain in effect throughout the term of this Agreement and shall be in addition to, and not in substitution for, any other representations, warranties, covenants and undertakings set forth in this Agreement.

Subject to Chapter 17, each Party to this Agreement shall immediately upon receipt of written notice from the other Party undertake to cure a breach of any representation, warranty, covenant or undertaking of that Party, and shall indemnify and hold harmless the other Party to this Agreement, and their respective employees, agents, and representatives, from and against all suits for injury or claims for damages to persons or property resulting from or arising out of such breach.

Chapter 16 DEFAULTS AND REMEDIES

16.1 Default of the Republic of Suriname

Should the Republic of Suriname fail to perform any of its obligations hereunder, Surgold shall give reasonable notice to the Republic of Suriname specifying the nature of the default and indicating that action must be taken to cure such default.

If corrective action is not completed within the cure period (which, unless a longer period is otherwise specified in the notice, shall be a period of sixty (60) days after notice), Surgold shall be entitled to institute proceedings in accordance with Chapter 17 of this Agreement.

16.2 Default of Surgold

Surgold shall be deemed to be in default hereunder if:

- (a) it fails to perform any obligation assumed by it hereunder and fails to completely remedy such failure of performance within sixty (60) days of the date of receipt by Surgold of a written notice of such failure to perform from or on behalf of the Republic of Suriname; provided, however, that Surgold may contest such notice of default provided it does so within sixty (60) days of the date of receipt of notice from the Republic of Suriname and pursuant to Chapter 17;
- (b) Surgold has not commenced Development as mentioned in Section 4.3 and fails to completely

remedy such failure of performance within sixty (60) days of the date of receipt by Surgold of a written notice of such failure to perform from or on behalf of the Republic of Suriname; provided, however, that Surgold may contest such notice of default provided it does so within sixty (60) days of the date of receipt of notice from the Republic of Suriname and pursuant to Chapter 17.

16.3 Termination

The Republic of Suriname may, subject to Section 16.4 hereof, terminate this Agreement and any Right of Exploitation in the event of a default under Section 16.2 (which is not cured or contested by Surgold within the applicable notice period) by written notice to Surgold, provided such default constitutes a material breach of this Agreement.

In determining whether a “material breach” of this Agreement has occurred, the following shall specifically be considered:

- (a) the good faith or lack thereof on the part of Surgold;
- (b) external factors, if any, which contributed to the breach;
- (c) the relative harm inflicted upon the Republic of Suriname and its People; and
- (d) whether the breach can be cured by the payment of money and any interest owed thereon, in which case, provided that Surgold demonstrates that it is capable and prepared to make payment of such damages, and does so within a reasonable period of time, the breach shall not be deemed a material breach.

16.4 No Termination during Proceedings

If Surgold has instituted proceedings in accordance with Chapter 17 hereof, the Republic of Suriname shall not terminate or purport to terminate this Agreement or any Right of Exploitation, and Surgold shall be entitled to continue Operations hereunder until the proceedings described in Chapter 17 shall have been completed.

An exception shall apply to the foregoing in case of continuing breaches of a very serious nature on public health, the human and natural environment of the Republic of Suriname or the risk of such breaches.

16.5 Institute Proceedings

Within the context of this Agreement, a Party shall be deemed to have “instituted proceedings” or “contested” hereunder if it serves written notice to the other Party to the dispute as referred to in Section 17.2 hereof and continues to avail itself of the dispute resolution mechanisms set forth in Chapter 17 hereof with diligence thereafter.

If Surgold has instituted proceedings under Section 17.2 hereof in connection with an allegation by the Republic of Suriname of a default by Surgold hereunder and Surgold continues to deny such alleged default after such proceedings have been completed, then the Republic of Suriname may, if it wishes to sustain its allegations, institute arbitration proceedings under Section 17.3 hereof.

If the Republic of Suriname succeeds in proving a default by Surgold hereunder to the satisfaction of an arbitral tribunal constituted under Section 17.3 hereof, it shall be entitled to such compensation in the form of damages as the tribunal shall award in accordance with the evidence presented and the provisions of applicable Law.

However, the Republic of Suriname shall not be entitled to seek a termination of any Right of Exploitation or this Agreement unless Surgold expressly consents to such termination or is adjudged by the tribunal to have committed a material breach of this Agreement or the Right of Exploitation.

In the event the Republic of Suriname shall be entitled to seek a termination of the Right of Exploitation or this Agreement, nothing in this Agreement shall be deemed to prevent the Republic of Suriname from recovering any damages caused by any breach of this Agreement by Surgold.

16.6 Position of Lenders

Should the Republic of Suriname give a notice to Surgold pursuant to Section 16.3, the Republic of Suriname shall give reasonable consideration to any proposal that any Lender of Surgold may subsequently make to the Republic of Suriname taking into consideration the positions of such Lender in regard to any outstanding obligations that Surgold may have to it at that time.

Chapter 17 DISPUTE RESOLUTION

17.3.2 Notwithstanding the foregoing, the arbitration shall be conducted in accordance with the following provisions:

The failure to attempt or complete conciliation or mediation proceedings shall in no event prevent a Party from instituting arbitration proceedings in accordance with Section 17.3 of this Agreement.

17.5 Failure to Participate

The failure by a Party to participate in arbitral proceedings shall not constitute valid grounds for rejecting the jurisdiction of the tribunal or the validity and enforceability of any of its awards.

Each Party hereby undertakes to execute any arbitral award rendered against it in accordance with the applicable provisions, in full, voluntarily and without delay and hereby waives any entitlement to invoke any ground of immunity in respect of jurisdiction or the execution or enforcement of such award, including, without limitation, principles of sovereign immunity.

5. CONTRIBUTIONS BY THE PARTNERS

5.1 Initial Contributions

As provided in the Mineral Agreement, the Republic of Suriname shall have the Option to participate in the Merian Gold Project up to at most twenty-five percent (25%) (the “Maximum Participating Interest”). By exercising the Option the right of participation shall be assumed to have been transferred to NV 2.

Upon the exercise of the Option:

5.1.1 the NV 2 shall make the Initial NV 2 Contribution to the Partnership, within ten (10) business days of the exercise of the Option, by wire transfer of immediately available US Dollars to the Partnership account, and upon such payment shall be deemed to have contributed the Initial NV 2 Contribution as its contribution to the Partnership.

5.1.2 upon the Partnership’s receipt of the Initial NV 2 Contribution, Surgold shall contribute for use by the Partnership, as its initial contribution: (i) all of Surgold’s rights under the Merian Right of Exploitation, (ii) all of Surgold’s rights under the Additional Rights, and (iii) the right to use of the Existing Data and the Assets listed in Exhibit C. Surgold shall execute and deliver such documents and instruments as are necessary to effect such contribution.

Effective and conditional upon such initial contributions being made, the Partners shall acquire a Participating Interest in the Partnership.

The date on which the Initial NV 2 Contribution is received is referred to in this Agreement as the “Contribution Effective Date.”

5.1.3 For avoidance of doubt, if NV 2 fails to pay its Initial NV 2 Contribution within the time period set in 5.1.1, then the Venture is deemed to have never been effective, in which case neither Party will have any Participating Interest and this agreement will be null and void.

The Option may be exercised only once. If the Initial NV 2 Contribution is exercised for a Participating Interest that is less than the Maximum Participating Interest, it may not subsequently be exercised for any additional Participating Interest.

5.2 Deemed Value of Initial Contributions

Upon the payment by NV 2 of the Initial NV 2 Contribution, the value of the Initial NV 2 Contribution shall be the amount of the Initial NV 2 Contribution, and the value of Surgold's initial contribution shall be an amount equal to the product of (i) the Total Value multiplied by (ii) the Participating Interest of Surgold.

5.3 Commencement of Joint Funding

At all times following the Contribution Effective Date, the Partners shall contribute funds required for Operations in proportion to their respective Participating Interests, subject to elections permitted in Article 10 ("Commencement of Joint Funding").

6. PARTICIPATING INTERESTS

6.1 Participating Interests

6.1.1 Initial Participating Interest

Pursuant to the provisions of Section 3 of the Mineral Agreement, upon their respective initial contributions made pursuant to Section 5.1, the Partners shall have the following Participating Interests in the Partnership.

NV 2: The Participating Interest that is a percentage determined by dividing the amount of the Initial NV 2 Contribution by the Total Value but in no event more than the Maximum NV 2 Participating Interest.

Surgold: The Participating Interest that equals one hundred percent (100%) less the Participating Interest of the NV 2.

6.1.2 Changes in Participating Interests

A Partner's Participating Interest shall only be changed as follows:

- (a) as provided in Section 6.2, in the event of an election of the Limited Partner to not fully participate in the funding of an Expansion of Existing Operations;
- (b) as provided Section 6.2, in the event that the Managing Partner elects to acquire Third Party Rights and the Limited Partner elects not to fully participate in such an acquisition of Third Party Rights as provided in Section 15.5;
- (c) as provided in Section 6.3, pursuant to Section 10.7;
- (d) upon withdrawal, pursuant to Article 12;
- (e) pursuant to a transfer by a Partner of all or a portion of its Participating Interest in accordance with Article 14; or
- (f) upon acquisition by either Partner of part or all of the Participating Interest of the other Partner, however arising; and
- (g) as provided in Section 6.3.

Following the Contribution Effective Date, the Managing Partner shall memorialize the Participating Interests of the Parties as established in accordance with Section 6.1.1.

6.2 Voluntary Reduction in Participation – Dilution

6.2.1 Subject to the notice requirement in Section 10.3, the Limited Partner may elect to not fully contribute to an Expansion of Existing Operations, or acquisition of Third Party Rights once the decision is made by the Surgold to engage in said Expansion of Existing Operations, or acquisition of Third Party Rights.

In such event, Surgold shall then have the option to fully fund the remaining portion of the Expansion of Existing Operations, or acquisition of Third Party Rights.

6.2.2 If Surgold elects to continue with the Expansion of Existing Operations, or acquisition of Third Party Rights it may upon request by the Limited Partner, but at its sole discretion, elect to treat all amounts advanced by it in respect of such Expansion of Existing Operations, or acquisition of Third Party Rights in excess of its Participating Interest, hereinafter called, the Excess Funding Amount, as either (i) additional contribution for its own account, and/or (ii) as a loan to the Limited Partner, hereinafter called, a Covering Loan.

If treated as a Covering Loan such Covering Loan may be up to twenty-five percent (25%) of the required capital contribution for the Expansion of Existing Operations, or acquisition of Third Party Rights, up to a maximum aggregate amount of fifty million United States Dollars (US\$ 50,000,000) at any time outstanding, at a rate of interest of LIBOR plus seven percent (7%). Such Covering Loan will be repaid to Surgold with up to hundred percent (100%) of the Limited Partner's Allocation until fully repaid.

6.2.3 If Surgold elects to treat the Excess Funding Amount over and beyond the amount of any Covering Loan, if extended, as an additional contribution for its own account, then the Participating Interest of the Limited Partner shall be recalculated at the time of election by dividing the sum of (a) the deemed value of the Limited Partner's Contribution as defined in Sections 5.2, plus (b) the total of all the Limited Partner's previous contributions, by the sum of (a) and (b) above for all Partners, plus (c) the amount of the Expansion of Existing Operations, or acquisition of Third Party Rights, treated as an additional contribution for Surgold's own account and multiplying the result by 100.

That is:

$$\frac{(a) + (b) \text{ Limited Partner}}{(a) + (b) \text{ All Partner} + (c)} \times 100 = \text{Recalculated Participating Interest The Participating}$$

Interest of Surgold shall thereupon become the difference between 100% and the recalculated Participating Interest of the Limited Partner.

As soon as practicable after the necessary information is available at the end of each period covered by an adopted Program and Budget, a recalculation of each Partner's Participating Interest shall be made in accordance with the preceding formula to adjust, as necessary, the recalculations made at the beginning of such period to reflect actual contributions made by the Partners during the period.

Except as otherwise provided in this agreement, the Limited Partner shall retain all of its rights and obligations under this agreement, including the right to participate in future Expansion of Existing Operations, or acquisition of Third Party Rights at its recalculated Participating Interest.

If there are at any time Covering Loans outstanding to the Limited Partner, then such Covering Loans shall rank on a *paripassu* basis and all amounts that are to be applied to a Covering Loan in accordance with the immediately preceding sentence shall be applied to all such Covering Loans on a pro rata basis, in accordance with the outstanding principal amounts of such Covering Loans.

6.2.4 If Surgold advances funds for the account of the Limited Partner pursuant to Section 10.7, and such funds are not recovered by Surgold from Allocations to the Limited Partner, or otherwise repaid by the Limited Partner, within thirty (30) days after the date on which they are advanced, hereinafter called, Unrecovered Shortfall Advances, then the Participating Interests of the Partners shall be adjusted in accordance with the formula in Section 6.2.3, treating the Unrecovered Shortfall Advances as contributions for the account of Surgold.

6.3 Default in Making Contributions

6.3.1 If the Limited Partner elects to contribute to an approved Expansion of Existing Operations, or acquisition of Third Party Rights and then defaults in making a contribution, or to the extent that any amounts advanced by Surgold pursuant to Section 10.7 are not repaid out of Allocations to the Limited Partner within thirty (30) days, or otherwise repaid by the Limited Partner, within thirty (30) days after the date on which they are advanced, Surgold may, but is not obligated to, advance the defaulted contribution on behalf of the Limited Partner and treat the same, together with any accrued interest, as a demand loan bearing interest from the date of the advance at the rate and on the terms provided in Section 6.2.2.

6.3.2 The Partners acknowledge that if the Limited Partner defaults in repaying a loan under Subsection 6.3.1, it will be difficult to measure the damages resulting from such default and the damage to Surgold could be significant.

In the event of such default, as reasonable liquidated damages, Surgold may, with respect to any such default not cured within thirty (30) days after Notice to the Limited Partner of such default, declare the Limited Partner in default, in which case the Limited Partner's Participating Interest shall be reduced by two times the amount that would otherwise be calculated pursuant to Section 6.2 in the case of an election under clause (i) of that Section, hereinafter called, Penalty Dilution.

If Surgold elects Penalty Dilution, the Limited Partner shall not thereafter be obligated to pay the monies due plus interest in accordance with Section 6.3.1.

6.4 Documentation of Participating Interest

Following the Contribution Effective Date, the Managing Partner shall prepare and provide to the Partners Exhibit D to this agreement, stating the Partners' respective Participation Interest.

Each Partner hereby agrees to take all action necessary to perfect such lien and security interests and hereby appoints the other Partner, its attorney-in-fact, to execute, file and record all security documents necessary to perfect or maintain such lien and security interests.

Any dispute arising out of or in connection with this agreement or the breach, termination, validity, performance or interpretation thereof which is not resolved pursuant to Section 16.8.2 hereof or otherwise shall be referred for determination to final, and binding arbitration before the London Court of International Arbitration (the "Court"), to the exclusion of all courts of any State and other like forums, under the Rules of the London Court of Arbitration applicable to International Arbitrations (the "London Rules") valid on the date of the dispute.

Notwithstanding the foregoing, the arbitration shall be conducted in accordance with the following provisions:

16.9 Remedies

Each of the Partners agrees that its failure to comply with the covenants and restrictions set out in Article 16 would constitute an injury and damage to the other Partner impossible to measure monetarily. In the event of any such failure, the other Partner shall, in addition and without prejudice to any other rights and remedies at law or in equity, be entitled to injunctive relief restraining, enjoining or specifically enforcing any acquisition, sale, transfer, charge or Encumbrance save in accordance with or as required by the provisions of Article 16.

Should any provision of this agreement be construed in such a way as to invalidate the limited partnership characteristic of this partnership, the Partners shall continue to exercise their rights, perform their obligations, and incur liabilities, as contemplated by this agreement to the extent that they can do so in accordance with Laws, until a new CV partnership can be entered into between the Partners.

16.14 Partition

Attachment IV
NET SMELTER RETURNS
1. Net Smelter Returns
1.1 For Precious Metals

Net Smelter Returns, in the case of gold, silver, and platinum group metals, hereinafter, Precious Metals, shall be determined by multiplying:

- (a) the gross number of troy ounces of Precious Metals recovered from production of Mines during the preceding calendar month, hereinafter, Monthly Production, delivered to the smelter, refiner, processor, purchaser or other recipient of such production, hereinafter collectively, Payor, by
- (b) for gold, the average of the London Bullion Market, Afternoon Fix, spot prices reported for the preceding calendar month, hereinafter Applicable Spot Price, and for all other Precious Metals, the average of the New York Commodities Exchange final spot prices reported for the preceding calendar month for the particular Mineral for which the price is being determined,

and subtracting from the product of Subsections 1.1(a) and 1.1(b) only the following if actually incurred:

- (i) charges imposed by the Payor for refining bullion from doré or concentrates of Precious Metals, hereinafter, Beneficiated Precious Metals, produced by Surgold's final mill or other final processing plant; however, charges imposed by the Payor for smelting or refining of raw or crushed ore containing Precious Metals or other preliminarily processed Precious Metals shall not be subtracted in determining Net Smelter Returns;
- (ii) penalty substance, assaying, and sampling charges imposed by the Payor for refining Beneficiated Precious Metals contained in such production; and
- (iii) charges and costs, if any, for transportation and insurance of Beneficiated Precious Metals from Surgold's final mill or other final processing plant to places where such Beneficiated Precious Metals are smelted, refined and/or sold or otherwise disposed of.

1.2 For Other Minerals.

Net Smelter Returns, in the case of all minerals other than Precious Metals and the beneficiated products thereof, hereinafter, Other Minerals, shall be determined by multiplying:

- (a) the gross amount of the particular Other Mineral contained in the Monthly Production delivered to the Payor during the preceding calendar month, by

Mineral Agreement between
The Republic of Suriname and Suriname Gold
Company LLC

58

-
- (b) the average of the New York Commodities Exchange final daily spot prices reported for the preceding calendar month of the appropriate Other Mineral,

and subtracting from the product of Subsections 1.2(a) and 1.2(b) only the following if actually incurred:

- (i) charges imposed by the Payor for smelting, refining or processing Other Minerals contained in such production, but excluding any and all charges and costs related to Surgold's mills or other processing plants constructed for the purpose of milling or processing Other Minerals, in whole or in part;
- (ii) penalty substance, assaying, and sampling charges imposed by the Payor for smelting, refining, or processing Other Minerals contained in such production, but excluding any and all charges and costs of or related to Surgold's mills or other processing plants constructed for the purpose of milling or processing Other Minerals, in whole or in part; and

- (iii) charges and costs, if any, for transportation and insurance of Other Minerals and the beneficiated products thereof from Surgold's final mill or other final processing plant to places where such Other Minerals are smelted, refined and/or sold or otherwise disposed of.

If for any reason the New York Commodities Exchange does not report spot pricing for a particular Other Mineral, then the Parties shall mutually agree upon an appropriate pricing entity or mechanism that accurately reflects the market value of any such Other Mineral.

In the event smelting, refining, or processing of bullion from the Beneficiated Precious Metals or Other Minerals is carried out in custom toll facilities owned or controlled, in whole or in part, by Surgold, which facilities were not constructed solely for the purpose of refining Beneficiated Precious Metals or milling or processing Other Minerals from Mines, then charges, costs and penalties for such smelting, refining or processing shall mean the amount Surgold would have incurred if such smelting, refining or processing were carried out at facilities not owned or controlled by Surgold then offering comparable services for comparable products on prevailing terms, but in no event greater than actual costs incurred by Surgold with respect to such smelting and refining.

In the event Surgold receives insurance proceeds for loss of production of Precious Metals or Other Minerals, Surgold shall pay to the Republic of Suriname six percent (6%) of any such insurance proceeds which are received by Surgold for such loss of production.

2. Payments of Royalty

As of the Effective Date of this Agreement, the Republic of Suriname elects to receive its Royalty on Precious Metals 'in kind' as refined bullion.

Mineral Agreement between
The Republic of Suriname and Suriname Gold
Company LLC

59

In the event no written election is made, the Royalty for Precious Metals will continue to be paid to the Republic of Suriname as it is then being paid.

Royalties on Other Minerals may only be paid in cash.

2.1 Royalty In Kind

2.1.1 The Republic of Suriname shall open a bullion storage account at each refinery or mint designated by Surgold as a recipient of production of Precious Metals from Mines.

account of accounts at the refinery or mint.

The Republic of Suriname assumes all responsibility for any shortages which occur as a result of the Republic of Suriname's anticipation of credits to its account in advance of an actual deposit or credit to its account by a refiner or mint.

2.1.6 Surgold shall deliver to the Republic of Suriname a receipt of a statement showing charges incurred by Surgold for deductible costs depicted in Articles 1.1(i), 1.1(ii), and 1.1(iii) hereof.

Within thirty (30) days the Republic of Suriname shall remit to Surgold full payment for such charges.

Mineral Agreement between
The Republic of Suriname and Suriname Gold
Company LLC

60

If the Republic of Suriname does not pay such charges when due, Surgold shall have the right, at its election, provided the Republic of Suriname does not dispute such charges, to deduct the gold equivalent of such charges from the ounces of gold bullion to be credited to the Republic of Suriname in the following month.

2.2 Royalty In Cash

If the Republic of Suriname elects to receive its Royalty for Precious Metals in cash, and as to Royalty payable on Other Minerals, payments shall be payable on or before the later of ten (10) days after Surgold receives payment from the Payor or the twenty-fifth (25th) day of the month following the calendar month in which the Minerals subject to the Royalty were shipped to the Payor by Surgold.

For purposes of calculating the cash amount due to the Republic of Suriname, Precious Metals and Other Minerals will be deemed to have been sold or otherwise disposed of at the time refined production from Mines is delivered, made available, or credited to Surgold by a refiner or mint.

The cash amount due for Royalty on Precious Metals or Other Minerals shall be six percent (6%) of the Net Smelter Returns as provided in articles 1.1 and 1.2 of this Attachment IV as applicable.

Surgold shall make each Royalty payment by delivery of a check payable to the Republic of Suriname and delivering such check to the Republic of Suriname at the address listed in the Agreement, or by direct bank deposit to the Republic of Suriname's account as the Republic of Suriname shall designate.

3. Detailed Statement

All Royalty payments or credits shall be accompanied by a detailed statement explaining the calculation thereof together with any available settlement sheets from the Payor.

The Parties recognize that a period of time exists between the production of ore, the production of doré or concentrates from ore, the production of refined or finished product from doré or concentrates, and the receipt of Payor's statements for refined or finished product.

As a result, the payment of Royalty will not coincide exactly with the actual amount of refined or finished product produced from Mines for the previous month.

Surgold will provide final reconciliation promptly after settlement is reached with the Payor for all lots sold or subject to other disposition in any particular month.

In the event that the Republic of Suriname has been underpaid for any provisional payment (whether in cash or 'in kind'), Surgold shall pay the difference in cash by check and not 'in kind' with such payment being made at the time of the final reconciliation.

If the Republic of Suriname has been overpaid in the previous calendar month, the Republic of Suriname shall make a payment to Surgold of the difference by check.

Reconciliation payments shall be made on the same basis as used for the payment in cash pursuant to Article 2.2 hereof.

All Hedging Transactions by Surgold and all profits or losses associated therewith, if any, shall be solely for Surgold's account.

5 Commingling

Surgold shall have the right to commingle Precious Metals and Other Minerals from Mines with minerals from other mines.

Before any Precious Metals or Other Minerals produced from Mines are commingled with minerals from other mines, the Precious Metals or Other Minerals produced from Mines shall be measured and sampled in accordance with sound mining and metallurgical practices for moisture, metal, commercial minerals and other appropriate content, applied on a consistent basis.

Representative samples of the Precious Metals or Other Minerals shall be retained by Surgold and assays (including moisture and penalty substances) and other appropriate analyses of these samples shall be made before commingling to determine gross metal content of Precious Metals or gross metal or mineral content of Other Minerals.

Surgold shall retain such analyses for a reasonable amount of time, but not less than twenty four (24) months, after receipt by the Republic of Suriname of the Royalty paid with respect to such commingled Minerals, and shall retain such samples for not less than thirty (30) days after collection.

6. Stockpilings and Tailings

Surgold shall retain its right to process, reprocess and sell Minerals extracted from tailings, residues, waste rock, spoiled leach materials, and other materials (hereinafter collectively, Materials) resulting from Surgold's Operations, but such Mineral shall remain subject to the Royalty should the Materials be processed or reprocessed, as the case may be, in the future and result in the production and sale or other disposition of Minerals.

Notwithstanding the foregoing, Surgold shall have the right to commingle (as provided herein).

ACT of September 10, 2013
containing permission to enter into a
Mineral Agreement with Suriname Gold
Company LLC concerning the area
known as Merian, District of Sipaliwini.
(Act Merian Gold Project).

EXPLANATORY NOTE

GENERAL

This act has a purpose to grant permission to the Government of the Republic of Suriname to enter into a mineral agreement with Suriname Gold Company LLC, with the emphasis on the exploitation of gold. This agreement, however, contains provisions that derogate from existing legal regulations, which is only allowed if the National Assembly has given its explicit consent thereto.

That consent also includes the authorization of the Minister of Natural Resources and the Minister of Finance to bind the Republic of Suriname by signing the agreement.

Entering into the agreement with Suriname Gold Company LLC should lead to the development of a large-scale gold industry in East Suriname and as such should be very favourable for the Surinamese economy. This agreement should, however, not be only be counted to the efforts of the Government to give strong impulses to the Surinamese economy, but should also be placed within the framework of its pursuit to bring development to the population in all corners of Suriname.

The Government has decided to use the option to participate in the exploitation, as referred to in Article 32 of the Mining Act.

The negotiations with Suriname Gold Company LLC within this context has led to the Republic of Suriname being able to participate up to at most 25% in the Merian Gold Project (see: Article 3.1 of the Mineral Agreement). The right to participate that is established by and through the exercise of this option is, however, passed on to a company limited by shares to be established (NV 2), in which the Republic of Suriname has full control over the management (Article 3.2 of the Mineral Agreement).

The Republic of Suriname will also receive royalty in addition to income from taxes, which royalty will be 6% over the Net Smelter Returns (Articles 11.2, 11.3 and 20.1 of the Mineral Agreement), and more in particular in kind as refined gold, unless payment in cash would be preferred. The royalty percentage agreed upon, for that matter, belongs internationally to the higher segment of royalty compensation for gold mining.

It is also taken into account that the investments of Suriname Gold Company LLC, in addition will have a spin-off effect on the activities of local companies and persons, so that increased tax earnings can also be expected for the Republic of Suriname.

Appendix I of the Mineral Agreement contains the partnership agreement between the company to be established by the State (NV 2) and Suriname Gold Company LLC. The structure of a limited partnership was selected, in which Suriname Gold Company LLC will act as managing partner and NV 2 will act as silent partner.

NV 2, however, to obtain partnership rights, will have to make an initial contribution to the partnership (Article 5.2 of the Partnership Agreement), and will furthermore on the basis of approved programmes and budgets through so-called cash call have to contribute proportionately to the cash needs of the partnership (Article 10.6 of the partnership agreement).

The contribution of Suriname Gold Company LLC to the partnership will consist amongst other things of the use of the rights from the Merian Right of Exploitation, but automatically also all rights of exploitation and exploration of gold and associated metals that it will obtain in the future in the joint area around the Merian area, the Area of Interest (Articles 5.1.2 and 15.1 of the partnership agreement).

The Republic of Suriname will as shareholder of NV 2 be able to profit also in an indirect manner from the benefits of future exploration and exploitation rights of Suriname Gold Company LLC in the area.

EXPLANATION BY ARTICLE

Article 2

Of the legal regulations that derogate from the Mineral Agreement have been excluded: the Constitution, the international agreements applicable to the Republic of Suriname with foreign nations or bodies under the law of nations, as well as statutes or rules of procedure from or issued by such organizations under the law of nations, of which Suriname is a member, the Act containing General Provisions of the Legislation of Suriname, the Penal Code and other laws, insofar as they concern the penal provisions laid down in such laws, the Code of Criminal Proceedings; and Surinamese legal regulations in respect of the peoples living in tribal communities.

Article 3

In Article 11.2.6 of the agreement referred to in Article 1 Paragraph 1 is agreed that Suriname Gold Company LLC for the duration of this agreement will have to pay thirty-six per cent (36%) over the

annual profits in income tax. This rate is fixed for the duration of the agreement. This legal provision thus excludes that future legal regulations of any nature whatsoever will change this.

LETTERHEAD OF THE MINISTRY OF NATURAL RESOURCES

No.: NH13/947

To:

The Managing Director of Suriname Gold Company LLC,
Mr. A. Van Kersen
Surinamestraat no. 54

Paramaribo, 21 November 2013
Subject: Your letter of 31 October 2013

Dear Mr. Van Kersen,

With this letter we confirm the receipt of your letter of 31 October 2013.

Before discussing the request contained in the letter, it does not appear to be superfluous to emphasize to you that amendments in the Mineral Agreement adopted by the National Assembly on the 7th of June 2013, will only be possible after having obtained permission for that purpose from the National Assembly. As Minister we are not authorized to do so. The Minister of Natural Resources is indeed charged, together with the Minister of Finance, pursuant to Article 4 Paragraph 3 of the Merian Gold Project Act (Bulletin of Acts, Orders and Regulations S.B. 2013 no. 162) with the implementation of this act. This letter has to be seen within that context.

For as far as your question is concerned on obtaining clarity about Articles 3.1 and 3.2 amended by the National Assembly of the draft of the Mineral Agreement, we can state as follows. These amendments were made to emphasize that, after the exercise by the Republic of Suriname of its participation option which originates in Article 32 of the Mining Act, the actual participation in the Merian Gold Project by the Republic of Suriname will take place through a Company Limited by Shares to be designated. The right itself to participate in the Merian Gold Project arises after all through the exercise of the participation option by the Republic of Suriname.

This right to participation should thus immediately after it comes into being be considered to be transferred by the Republic of Suriname to the Company Limited by Shares to be designated (NV 2).

The participation option of the Republic of Suriname to participate for at most 25% in the Merian Gold Project is for that matter referred to in the draft of the Mineral Agreement as 'the Option'.

Trusting to have taken away the lack of clarity about the purport of Articles 3.1 and 3.2 of the approved draft of the Mineral Agreement, we remain,

Yours faithfully,
The Minister of Natural Resources

No. 185
BULLETIN OF ACTS, ORDER AND REGULATIONS
OF THE
REPUBLIC OF SURINAME

ORDER of the Minister of Natural Resources of 20 November 2013 no. 690/13-0373, containing the establishment of the policies to be followed by means of the transfer and maintenance of rights of exploration and exploitation of gold and other minerals by Suriname Gold Company LLC.

THE MINISTER OF NATURAL RESOURCES

Having read: the application of Suriname Gold Company LLC of 31 October 2013.

IN VIEW OF:

1. Article 4 Paragraph 3 of the Merian Gold Project Act (Bulletin of Acts, Orders and Regulations S.B. 2013 no. 162);
2. Articles 5 Paragraph 1 and 15 Paragraph 1 under a of the Order on Task Descriptions Departments 1991 (Bulletin of Acts, Orders and Regulations S.B. 1991 no. 58, as amended last by S.B. 2010 no. 124).

CONSIDERING:

- that transparent and consistent policies are desirable in the transfer and maintenance of rights of exploration and exploitation of gold and other minerals located within the so-called “Area of Interest”, as referred to in the Agreement annexed to the Merian Gold Project Act (hereinafter: the Mineral Agreement);
- that the policies in respect hereof should for that reason be laid down.

HAS DECIDED:

I. To lay down as the policy to be followed for the rights of exploration and exploitation for gold and other minerals to be acquired by Suriname Gold Company LLC by means of transfer from companies affiliated to it or from third parties:

a. that the Suriname Gold Company LLC is completely free, taking the applicable legal regulations into account, to acquire rights of exploration and exploitation for gold and other minerals within the aforementioned Area of Interest from companies affiliated to it or from third parties;

b. that, however, to bring the (renewed) rights of exploration to be acquired under the governance of the Mineral Agreement, it is required to limit the rights to be acquired and more in particular to only include ‘gold and all metals that occur in nature normally together with gold’;

c. that for that purpose it is necessary that Suriname Gold Company LLC also indicates this in its request to the Minister of Natural Resources for the transfer of such rights, after which for the thus acquired renewed rights of exploration and the successive rights of exploitation the provisions of the Mineral Agreement will apply;

d. that in the foregoing, the procedure and time periods stipulated in Article 4.6 under c and d of the Mineral Agreement shall be equally applicable.

II. To lay down as the policy to be followed in respect of the already existing rights of exploration for gold and other minerals belonging to third parties in aforementioned Area of Interest:

a. that the provisions of the Mining Act will be conscientiously observed, in particular the provisions relating to the extension, reduction and termination of these rights as well as to the granting of the successive rights of exploitation for gold and other minerals;

b. that this entails that within the Area of Interest only Rights of Exploration and Rights of Exploitation for gold and other minerals that are in “good standing” belonging to third parties shall be maintained.

III. To lay down that the Ministers of Natural Resources and Home Affairs shall be in charge of the implementation of this Order.

IV. To determine that this Order will be published in the Bulletin of Acts, Orders and Regulations of the Republic of Suriname and will come into force on the day of signing of the Mineral Agreement.

V. To send a copy of this Order to the Chairman of the Suriname Audit Chamber, the Director of the Cabinet of the President of the Republic of Suriname, the Vice-President of the Republic of Suriname, the Permanent Secretary of Finance, the Permanent Secretary General Affairs of the Ministry of Home Affairs, the Permanent Secretary of Justice and Police, the Director of the Bureau of National Security, the Permanent Secretary of Labour, Technological Development and Environment, the Director of NIMOS, the Director of the Bauxite Institute Suriname, the Permanent Secretary of Natural Resources, the Chief of the Suriname Police Corps, the Mortgage Keeper, and other interested parties.

Paramaribo, the 20th of November 2013,
J.K. HOK.

Issued in Paramaribo, the 21st of November 2013
The Minister of Home Affairs,
S. MOESTADJA.
